

Line Card

Coroplast Tape

- Woven Cloth Wire Harness Tapes
- Aluminum Foil Wire Harness Tapes
- Non-Woven Polyester Wire Harness Tapes
- Film Tapes (PVC, Modified PVC, and PP)
- Fastening & Joining Tapes
- Single & Double Sided & Transfer Tapes
- Longitudinal Tape, Reverse Tape & TapeTube

Coroplast products offer protections from many external threats to quality, including: heat reflection, clip fixation, product flexing, rodents, abrasion, impact, and sound permeation.

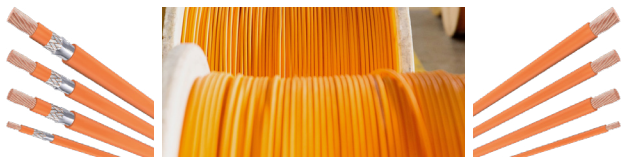

Eurotech Heat Shrink Tubing

- Single & Dual Wall Heat Shrink Tubing
- Custom Tubing
- Extruded Tubing
- 138225 & PET Braided Sleeving
- Aluminum Corrugated Flexible Conduit
- Aluminum Heat Reflect Fiberglass Sleeving

Performance: Excellent insulating properties, high temperature resistance, splice sealing, available in various sizes and shrink ratios.

Coroflex High-Voltage Cables

- Copper and aluminum conductors
- Single and multi-core cables
- Temperature classes 150 °C and 180 °C
- Voltage classes up to 1,000 V a.c. / 1,500 D d.c.
- According to LV216 and ISO 19642

Regardless of whether hybrid vehicle or purely electric car, both vehicles need cables for partly extreme current loads. Our high-voltage cables – or abbreviated: HV cables – fulfill all electrical, thermal, and mechanical requirements to a high degree.

Eurotech Developed Products

ARC (Adhesive based harness / bundle routing device)

- Routes harness or tubes without clips and holes
- Integrated mechanical attachment to bundle

BlueSeal

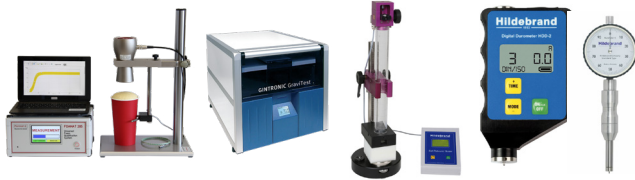

- Helps protect modules and electronics from water intrusion
- Seals splices and eye-terminals
- Easier and more reliable method vs. heat shrink
- Equipment options

Ultra Water Barrier

- Protects modules, electronics and battery cables from water intrusion
- Seals splices and eye terminals
- Works with round-crimped or flat-welded battery terminals
- Noise reduction into cab and extreme flexibility w/o leak development

Line Card

Testing Equipment

Format Foam Qualification System

- Rate of rise, rise height, temperature, pressure
- Resimat150 Recovery Time Monitor
- Polyurethane & Epoxy Curing Monitor

Gintronic

- Water Vapor Permeability Testing

Hildebrand

- Hardness Testing
- Durometer, Ball Rebound Tester, Densimeter, etc.

Terminals, Connectors & Rubber Parts

Escubedo Connection Systems

- Terminals
- Plastic Connectors

Zorge

- Custom Grommets & Gaskets
- Waterjet & Die-Cut Parts

Eurotech supplies some of the best connection systems to the white goods and automotive market, with it's partnership with Escubedo Connection Systems and Zorge.
